KHUSHI GUPTA

Data Analyst | BI & SQL | Junior Data Engineer

Open to Relocate — Bangalore / Hyderabad / Pune | +91-9456109398 | khushiiigupta23@gmail.com | linkedin.com/in/khushi-gupta | github.com/Khushiguptaaaaa

PROFESSIONAL SUMMARY

Computer Science graduate (Completed, April 2026) specialising in data analytics, SQL engineering, and business intelligence. Hands-on experience building ETL pipelines in PySpark for 1M+ records, designing PostgreSQL schemas, and delivering automated KPI dashboards in Power BI and Tableau. Published researcher (NIT Uttarakhand, 2026). Actively seeking Data Analyst / Junior Data Engineer roles — open to immediate relocation.

TECHNICAL SKILLS

Languages & Scripting:	SQL, Python, PySpark, Java, Bash
Data Engineering & ETL:	PySpark, ETL/ELT Pipelines, Batch Processing, REST API Ingestion, Data Cleaning
Databases & Modeling:	PostgreSQL, MySQL, SQLite, Relational Data Modeling, Schema Normalization, Indexing
Advanced SQL:	Window Functions, CTEs, Complex Multi-Table JOINs, Query Optimization, Aggregations
BI & Analytics:	Power BI (DAX), Tableau, Advanced Excel (Pivot Tables, XLOOKUP), Pandas, NumPy
Developer Tools:	Git, GitHub, Linux/Unix, VS Code, Postman, SOQL

DATA ENGINEERING & ANALYTICS PROJECTS

Distributed Retail ETL Pipeline & Analytics Data Store

PySpark, PostgreSQL, Python, SQL — 2025

- Engineered an automated batch ETL pipeline in PySpark to clean, normalise, and load 1,000,000+ transactional sales records into PostgreSQL.
- Authored complex SQL queries using Window Functions, CTEs, and indexed JOINs — reduced analytical query execution time by 30%.
- Designed normalised star/snowflake schemas with PK/FK constraints to enforce referential integrity across multi-region datasets.
- Implemented automated data validation in Python to detect schema drift, remove duplicates, and impute missing values during ingestion.

Executive Sales Intelligence & KPI Dashboard

Power BI, DAX, PostgreSQL, Advanced Excel — 2025

- Built an interactive Power BI dashboard tracking 12 operational KPIs — revenue trends, customer retention, and regional margins.
- Authored custom DAX measures and calculated columns for time-intelligence calculations: YoY growth, rolling averages, moving totals.
- Connected dashboards directly to PostgreSQL, automating data refresh cycles and standardising weekly analytical reporting.

Statistical Feature Engineering for Anti-Spoofing AI

Python, NumPy, Pandas, Scikit-Learn — 2026

- Extracted and normalised high-dimensional visual feature vectors across image datasets to train computer vision classification models.
- Presented quantitative evaluation metrics at the 4th ICCEE Conference (NIT Uttarakhand, 2026) — validated 96% detection accuracy.

PRACTICAL EXPERIENCE & INTERNSHIPS

Salesforce Developer Intern — AgentBlazer Program

2025

- Wrote structured SOQL queries to extract, filter, and manipulate enterprise records across relational Salesforce schema objects.
- Automated transactional business logic and data validation using Apex triggers, preventing record duplication and corrupt input entries.
- Resolved 15 data-related bugs during integration testing, ensuring consistency across standard and custom object relationships.

Cybersecurity Data & Log Intern — Acmegrade

Jul 2024 – Aug 2024

- Aggregated and parsed 1,000+ unstructured security log events using SIEM tooling to detect anomalous connection patterns.
- Extracted event metadata and filtered high-frequency false positives to surface actionable access logs for security reporting.

EDUCATION

DIT University — B.Tech in Computer Science & Engineering

Dehradun, India | 2022 – 2026 (Completed, April 2026)

Relevant Coursework: Database Management Systems, Data Structures & Algorithms, Operating Systems, Probability & Statistics

CERTIFICATIONS & ACHIEVEMENTS

- Research Publication: Presented at 4th International Conference on Computer & Electrical Engineering, NIT Uttarakhand (2026).
- 1st Place Winner: Tata Building India State-Level Competition (among 50+ participants).
- Microsoft Certified: Security Tools & Threat Analysis Fundamentals (2025).
